

GUBSER PARKING LOT PROCEDURES 2010-2011

Parking Lot Tips

- To reduce traffic, please walk your child to school or arrange for him/her to walk/ride a bike with a buddy.
- To reduce traffic, please arrange to carpool with other families.
- The sidewalk along 14th street is a good drop off/ pick up spot. An adult crossing guard will help your children cross the street.
- Arriving at 3:25 may reduce the amount of traffic congestion that you experience.
- **Please remain behind the wheel at all times unless you are in a designated parking spot.**
- Always pull forward as space becomes available.
- Please remind your student(s) to only walk on sidewalks and crosswalk areas. We ask that all adults also model this behavior for the students.

Area A

- Only form one lane as you enter the parking lot.
- Use vehicle lane entrance and keep bus lane entrance free.
- There are two options for drop off/pick up: The lane in Area B or the lane in Area E.

Area B

- The Keizer Fire Department allows us to use the fire lane before and after school as long as drivers remain at the wheel.
- Watch for children and stop at all crosswalks.
- The area with cones is designated for special needs busses.

Area C

- This area is for staff parking.
- Please do not use Area C for drop-off/pick-up. Keizer Fire Department needs us to keep this lane open before and after school.
- Students in the on-site childcare program may be dropped off prior to 8:45 and picked up after 3:45 pm in Area C.

Area D

- Two lanes exit the parking lot. The left lane is left turn only and the right lane is right turn only.

Area E

- Students may be picked up at the flag pole. For safety reasons students will not be allowed to go across the parking lot to their car unless they are accompanied by a parent.
